2023-06-01 Tilo Schwarz Denise dreamed of being the kind of leader who empowered and engaged her people, but was becoming frustrated and disillusioned. Denise -- a fast-rising, young consultant at a large advisory firm -- lands a job as a manager in industry. Crisis strikes as low-cost competitors take market share and general chaos generates late shipments. Denise goes into Lean consulting mode but quickly learns her supervisors are not buying it. They're not engaged, and they find the Lean tools confusing and a distraction from their goals of getting product out. It's going to take some magic -- magic that's available to you, the reader, too! Come with Denise on a journey of discovery and skill development, as she moves beyond the tools and concepts of Lean and focuses on daily practice that helps her supervisors achieve their goals. It's about an approach called Toyota Kata that helps anyone develop and apply scientific thinking -- an exploratory mindset of curiosity and experimentation. A mentor from an unlikely place appears and shares with Denise how to coach her team. Once her supervisors dig into real problems they face every day, they begin to engage. Step by step, with insightful inputs from her mentor, Denise starts developing the skills to become a coaching manager. She watches her team meet their current challenges and be ready for more. When you teach and practice scientific thinking and coaching skills you give wings to your team, and new worlds of

opportunity open up. If you're a manager you'll identify with how the team in this story goes beyond general preaching about best practices, to practicing how to get to where they want to be. If you're a Lean practitioner frustrated with applying tools with a limited half life, you'll learn how to develop people so they can achieve their most important goals and keep going. And if you're already a Toyota Kata practitioner, well ... you will love this book!

2024-03-12 Rosa Annie Wilkes Welcome! If you're picking up this book, you might be looking for ways to understand and live better with psychosis, or perhaps you're helping someone who is. This isn't just another self-help book. It's a guide designed specifically for you—whether you're navigating your own experiences with psychosis, caring for a loved one, a mental health professional seeking to expand your toolkit, or an educator aiming to support your students more effectively. Psychosis can feel like a journey through uncharted territory. Traditional approaches to managing it often take a one-size-fits-all

approach, which might not resonate with everyone's unique experiences. That's where this book, and Dialectical Behavior Therapy (DBT), comes in. DBT, a therapy originally developed to treat borderline personality disorder, has shown promising results for a wide range of other conditions, including psychosis. Its core principles—mindfulness, distress tolerance, emotion regulation, and interpersonal effectiveness—offer powerful tools for managing the intense emotions and challenges that come with psychosis. But here's where we take a unique turn: we tailor these strategies to fit your personal story.

2020-07-20 Ralph Berwanger Papa Rafa has been the Marino story keeper for more than twenty-five years. As the story keeper, he has memorized almost every leaf of the family tree back to the 1600s. More importantly, Papa Rafa is the protector of stories from the past and a collector of stories from the present. Over 250 years of stories that reveal the character of the Marino family reside in Papa Rafa's library. Within the pages of this book are some of his favorite stories. He has included the story of Great-Grandmother Pia's bravery in war, his sister Isabella's encounter with giant whales, and even his own careless adventure with a rubber raft. They are about Papa Rafa's family. The character names may be new to you, but look carefully, inside every story, you will see someone that you know or maybe even yourself.  bestseller Watch your most innovative ideas take flight by overcoming the forces that resist change The Human Element is for anyone who wants to introduce a new idea or innovation into the world. Most marketers, innovators, executives, activists, or anyone else in the business of creating change, operate on a deep assumption. It is the belief that the best (and perhaps only) way to convince people to embrace a new idea is to heighten the appeal of the idea itself. We instinctively believe that if we add enough value, people will eventually say "yes." This reflex leads us down a path of adding features and benefits to our ideas or increasing the sizzle of our messaging - all in the hope of getting others on board. We call this instinct the "Fuel-based mindset." The Fuel-based mindset explains so much of what we do, from adding countless trivial features to software, to bolting a sixth blade onto a shaving razor. By focusing on Fuel, innovators neglect the other half of the equation - the psychological Frictions that oppose change. Frictions create drag on innovation. And though they are rarely considered, overcoming these

Frictions is essential for bringing new ideas into the world. The Human Element highlights the four Frictions that operate against innovation. Readers will discover: Why their best ideas and initiatives often get rejected - despite their undeniable value How to disarm the forces of resistance that act against change How to transform the very Frictions that hold us back into catalysts for change Perfect for business leaders, product managers, educators, and anyone else who seeks to bring new and exciting ideas to life, The Human Element is an indispensable resource to help people overcome the powerful forces of human nature that instinctively resist change.

2018-08-21 Cynthia Darst Inside all of us is a collection of internal voices, parts, and beliefs, that sometimes work in harmony and sometimes doesn't. When your Inside Team is working together everything can be great and life wonderful. But when your Inside Team isn't aligned you can feel stuck, anxious, confused, or judge and beat up on yourself. Here is an example: Part A: This could be amazing. I want to go for it! Part B: Are you insane? You can't leave your job and go back to school. Part C: You should just buckle down and work harder! Part D: But I'm not happy. It's time to change that. Part E: And have your hopes crushed again? Part A: Hey, wait a minute. When you've taken on something new in your life, you've always made it work. You could do this! Can you relate to the above example? What if you had a way to turn toward these parts with curiosity and respect, and find out what they're really trying to say and then bring them into alignment? The Inside Team approach shows you how to go behind the curtain, so that you can discover the way you think and understand

what these parts of you really want. By doing so your creativity and resourcefulness will have room to grow, turning internal conflict into clarity, negative thoughts into positive ones, and moving forward with more ease and fun in your life. For over 25 years, Master Coach Cynthia Loy Darst has been helping people achieve what they really want in their lives. Known as a "coach's coach" her Inside Team trainings are highly sought after by life coaches, executive coaches, therapists, and those wanting to make meaningful change in their lives.
