2015-03-31 Zackary I. Gilmore These perspectives are applied to a broad range of archeological contexts stretching across the Southeast and spanning more than 7,000 years of the region's pre-Columbian history. New data suggest that several of this region's most pivotal historical developments, such as the founding of Cahokia, the transformation of Moundville from urban center to vacated necropolis, and the construction of Poverty Point's Mound A, were not protracted incremental processes, but rather watershed moments that significantly altered the long-term trajectories of indigenous Southeastern societies. In addition to exceptional occurrences that impacted entire communities or peoples, Southeastern archaeologists are increasingly recognizing the historical importance of localized, everyday events, such as building a house, crafting a pot, or depositing shell.

2013-09-13 Martin Robertson Events and festivals have an increasingly vital role in our leisure lifestyles. We recognize them as part of our lives. For some, they are a very significant part of our lives. The network of festivals and events that either adorn the world now, or are planned for the future, can both serve to motivate new visits as well as enhance the lives of the people who live in – or near – the host area. They are also dynamos of cultural development, of sport knowledge and

excellence and sophisticated consumption. Such dynamic outputs require dynamic inputs. This book looks at different event and festival cases and forwards separate and current managerial implications and responses to these, with reference to the UK, America and Australia. Both up-to-date and forward thinking, the managerial themes addressed are: Creative Management, Festival and Event audience development, Culture and Community, Event and Festival evaluation. Festival and event types include sport events, art festivals, community events, live music and culinary extravaganza. This book was previously published as a special issue of *Managing Leisure: An International Journal*.

2012-12-06 Otto H. Walliser The existence of rapid and even catastrophic turnovers within the Phanerozoic ecosystems has been discussed controversially for more than 170 years. Since 1980 this discussion has become even more intensive after the hypothesis of Alvarez, explaining the end-Cretaceous mass extinction as the result of a huge asteroid impact on the Earth. This theory stimulated several thousand papers and is still controversial. The international research programme on "Global Biological Events in Earth History" attempts to bring the discussion back to the facts by using multidisciplinary investigations of the major Phanerozoic events. The results of an international group of experts are presented giving a wealth of information and a thorough

discussion of the causes of the various global events.

2021-08-12 Barbara Grabher Exploring the relationship between gender and events, this book delivers an ethnographic analysis of the celebration of gender equality in the context of the culture-led event. Drawing upon Critical Event Studies, Anthropology of the Festive and Gender Studies, this book provides a comprehensive understanding of the entangled, conceptual entities of gender and events. Through a gendered analysis of the culture-led event, Hull UK City of Culture 2017, this work expands epistemological perspectives relevant to the study of events in general and City/ Capital of Culture initiatives in particular. Driven by a feminist, collaborative methodological approach, the book draws on four years of ethnographic, qualitative research in the city of Hull and its celebration of the title, UK City of Culture in 2017 and provides an in-depth analysis of how audiences engage, performances enact, and infrastructures condition the production of cultures of gender equality in the citywide celebration. This will be a valuable resource for upper-level students

and academics in the field of Event Studies, Cultural Policy, Geography, Anthropology and Gender Studies.

1998-07-17 John E. Findling Designed to help students better understand the vitally important historical events of 18th century American history, this volume in the acclaimed series presents 10 major events in separate chapters. From the Great Awakening early in the century to Jefferson's Revolution of 1800, each chapter goes beyond the traditional textbook treatment of history by considering the immediate and far-reaching ramifications of each event. Events covered are: The Great Awakening, The Era of Salutary Neglect, The French and Indian War, The Stamp Act, The Boston Tea Party, The Declaration of Independence, The American Revolution, The Constitutional Convention, The XYZ Affair, and The Revolution of 1800. Each chapter features an introductory essay that presents the facts of the event, followed by an interpretive essay that places the event in a broader context and promotes student analysis. The introductory essay provides factual material in a clear, concise, chronological manner that makes complex history understandable. The interpretive essay, written by a recognized authority in the field and written in a style designed to appeal to a general readership, assesses the event in terms of its political, economic, sociocultural, and international/diplomatic significance. With its

emphasis on factual details and interpretive analysis, an illustration, and an annotated bibliography for each event, a glossary of names, events, and terms of the period, a timeline of important events in eighteenth-century history, and a table of the population of the colonies and selected colonial towns, *Events That Changed America in the Eighteenth Century* is an ideal addition to the high school, community college, and undergraduate reference shelf, as well as excellent supplementary reading in social studies and American history courses.

2016-02-09 DK Applying quirky illustrations and fun, informative text, *100 Events That Made History* takes a look at the key events from the past that have helped shape our present. from bloodthirsty battles and rebellious revolutions to curious coincidences and unfortunate accidents. Full of history and history-makers, *100 Events That Made History* contains all the historical accounts you'd expect to find, and plenty that you wouldn't! Divided into five chapters: Momentous Moments, Battling It Out, Weird or What?, Nasty Nature, and The Good, the Bad, and the Ugly, major moments that have changed the course of history are showcased together with minor incidents to give full context to each event. From the Gold Rush to the moon landing, and the Great Fire of London to the sinking of the Titanic, *100 Events That Made History* is perfect for book reports, school projects, or

anytime reading to satisfy and educate curious minds.

2021-05-30 James L. Moody *Lighting for Televised Live Events* unlocks the science, art, philosophies, and language of creating lighting for live entertainment and presentations that work for the television camera as well as for the live audience. The book explores how to retain the essence and excitement of a live production while assuring that the show looks its best on-camera for the millions of viewers that can only see it on their TV, computer, tablet, or mobile phone screen. Readers will learn how to adapt an existing stage show for the camera, as well as how to design live entertainment or events specifically for TV. Filled with real-life examples and illustrations, the book covers a wide range of topics, including: how exposure and color work for the camera; how angle, visual balance, and composition can make people and backgrounds look their best, while preserving theatricality; information on camera equipment, screens, and projectors, as well as the control room environments that are found on a professional shoot; the unique challenges of lighting for the IMAG video screens used at festivals and concerts. *Lighting for Televised Live Events* is aimed at lighting design students, as well as professional designers that are considering a career — or a career expansion — in television. It is an essential resource for any stage lighting designer whose show may be shot for a television special or a

live webcast and who will be asked by their client to collaborate with the incoming video team.

2012-09-01 Lemony Snicket There is nothing to be found in the pages of A Series of Unfortunate Events but misery and despair. You still have time to choose another international best-seller to read. But if you must know what unpleasanties befall the charming and clever Baudelaire children read on . . . In The Bad Beginning the three youngsters encounter a greedy and repulsive villain, itchy clothing, a disastrous fire, a plot to steal their fortune and cold porridge for breakfast. Then again, why trouble yourself with the unfortunate resolutions? With 5 million copies sold in the UK alone, one might consider Lemony Snicket's A Series of Unfortunate Events to make him one of the most successful children's authors of the past decade. We, however, consider these miserable so-called adventure stories and the Hollywood film starring Jim Carrey that accompanied the books for children as nothing more than a dreadful mistake.

2014-04-01 Ed Hindson What can people on Earth expect during the last days? In all the chaos that the Bible predicts, several events stand out as truly extraordinary—so much so that they arouse many questions from both Christians and non-Christians. What are these events, and what makes them so significant?

Longtime Bible prophecy expert Ed Hindson surveys each one in detail and explains the impact they will have: millions missing in the rapture world power shifts after the rapture, including in the USA the rise of a global dictator God's two witnesses rising from the dead in full view of the world the rebuilt Jewish temple usurped by Antichrist the Holocaust eclipsed Christ's glorious return to earth as conqueror and king A riveting overview of events that truly will shake the world—how they will unfold, what they mean to us, and God's purposes for bringing them about.

2020-08-04 Seungwon Lee Recent years have seen dramatic changes to the events industry. The influence of social media and global communications technology, increased focus on environmental sustainability and social responsibility, and changes to the economic and cultural landscape have driven rapid expansion and increased competition. Special Events: Creating and Sustaining a New World for Celebration has been the event planner's essential guide for three decades, providing comprehensive coverage of the theory, concepts and practice of event management. The new Eighth Edition continues to be the definitive guide for creating, organizing, promoting, and managing special events of all kinds. Authors, Seungwon "Shawn" Lee and Joe Goldblatt, internationally-recognized leaders and educators in the industry, guide readers through all the aspects of professional event

planning with their broad understanding of diverse cultures and business sectors. This definitive resource enables current and future event leaders to stretch the boundaries of the profession and meaningfully impact individuals, organizations, and cultures around the globe. Global case studies of high-profile events, such as the PyeongChang Winter Olympic Games and the Norway's Constitution Day annual event, complement discussions of contemporary issues surrounding safety, security, and risk management. Each chapter includes "Ecologic," "Techview," and/or "Secureview," mini-case studies, a glossary of terms, plentiful charts, graphs, and illustrations, and links to additional online resources.

2009-04-01 Robert Tuchman For the casual armchair fan to the fan who dreams of a front row seat at the games, The 100 Sporting Events You Must See Live provides invaluable information about tickets and travel as well as the parties and the pageantry for the top games across the sporting landscape. A detailed travel guide from Robert Tuchman, founder and president of the global leader in sports and entertainment promotion, TSE Sports & Entertainment, the book is replete with insider knowledge and expert advice. We are a list-obsessed people and sports-obsessed to boot, so this is a book that quenches our insatiable appetites for both. From the obvious to the

obscure, Tuchman's list of must-see events is as thorough as it is controversial. What events made the top 100 and where did they rank? The book is sure to fire up sports fans everywhere. But more than a mere list, for each event the reader learns a detailed history of their favorite contests and all the background information to make a successful pilgrimage. Featuring also a list of honorable mentions that just missed the cut and a list of the top sports cities with arguments for what makes each city the perfect sports mecca, *The 100 Sporting Events You Must See Live* is a must for every sports fan's library.

2018-10-30 Joe Tracz This mysterious illustrated tie-in to Netflix's award-winning *A Series of Unfortunate Events* -- featuring an introduction by Count Olaf's legal representative, Neil Patrick Harris -- shares insider secrets about the Baudelaire family and the making of the show. In every library there is a single book that can answer the question that burns like a fire in the mind... In this collector's companion you will discover never-before-seen photographs, never-before-told stories, and never-before, revealed secrets spanning all three seasons of the hilariously twisted, critically acclaimed hit series. You will encounter original concept art, annotated script excerpts, and interviews with the creative team and all-star cast, as well as glossaries, recipes, lyric sheets, hidden Easter eggs, shocking backstories, and suspicious pages from the

titular tome, unredacted, and revealed here for the first time. Featuring interviews with: Tony Hale Daniel Handler Aasif Mandvi Sara Rue Barry Sonnenfeld Patrick Warburton Bo Welch Alfre Woodard and more... Perhaps you are wondering how a noble person such as yourself might become a member of a secret organization. Like so many things in life, it starts by picking up the right book. So go ahead, read at your own risk.

2017-01-15 Samuel Jonathan Do you believe: These are not normal times? This is cannot be a "new" normal? We are informed & alert citizens? How do the day's event(s) compare with the famous quote you've picked to write about in *So This Just Happened: The Journal for USA Current Events*? Journal your thoughts on current events inside, in light of the 101 famous and thought-provoking quotes about the United States of America, democracy and more. Abnormal times call for first person accounts: witness current events compared to the United States of America's values, laws, and principles. *So This Just Happened: The Journal for USA Current Events* includes 101 thought-provoking and insightful quotes by Founding Fathers', famous historical figures, past Presidents and more for you to compare and contrast with current events. With a quote on every other

lined journal page; you can write in order or flip to the most relevant quote for the day's events to write about. Each lined page for you to write on has a spot to write the date at the top. Some of the famous and historical people quoted include: George Washington Abraham Lincoln Mark Twain Frederick Douglass Alexander Hamilton James Madison John Adams and many more. Use the classic quotes as inspiration to enter a current quote to contrast, compare, and enter your views - or to detail current events that may contrast with the quote on the page. Includes full journal pages on every other page to continue your entries about the quote on previous page, or to enter a new current or another famous quote and write about it. Get one for yourself to use now and one for friend(s). When you've journaled your first copy, get another for your 2nd volume.

2015-11-19 Andrew Smith Cities are staging more events than ever. Within this macro-trend, there is another less acknowledged trend: more events are being staged in public spaces. Some events have always been staged in parks, streets and squares, but in recent years events have been taken out of traditional venues and staged in prominent urban spaces. This is favoured by organisers seeking more memorable and more spectacular events, but also by authorities who want to animate urban space and make it more visible. This book explains these trends and outlines the implications for public spaces. Events play a

positive role in our cities, but turning public spaces into venues is often controversial. Events can denigrate as well as animate city space; they are part of the commercialisation, privatisation and securitisation of public space noted by commentators in recent years. The book focuses on examples from London in particular, but it also covers a range of other cities from the developed world. Events at different scales are addressed and, there is dedicated coverage of sports events and cultural events. This topical and timely volume provides valuable material for higher level students, researchers and academics from events studies, urban studies and development studies.

2007-07-16 Richard J. Cook This book presents models and statistical methods for the analysis of recurrent event data. The authors provide broad, detailed coverage of the major approaches to analysis, while emphasizing the modeling assumptions that they are based on. More general intensity-based models are also considered, as well as simpler models that focus on rate or mean functions. Parametric, nonparametric and semiparametric methodologies are all covered, with procedures for estimation, testing and model checking.

2014-10-30 Jennifer Laing Many events have evolved over centuries, drawing on local customs and conditions. However, as the world becomes increasingly globalised, traditional

events and the identities they support are increasingly being challenged and rituals may be lost. Reacting against this trend towards homogeneity, communities strive to preserve and even recreate their traditional events, which may require rituals to be resurrected or reinvented for a new audience. The aim of this book is to explore the role of traditional events and rituals in the modern world. The 16 chapters cover a range of case studies of the performance of ritual through events, including their historical antecedents and development over time, as well as their role in society, link with identities both seemingly fixed and fluid and their continued relevance. The cases examined are not museum pieces, but rather vibrant festivals and events that continue to persist. Drawing on the power of history and cultural tradition, they are manifestations of heritage, existing in three temporalities: celebrating the past, occurring in the present and aiming to continue into and influence the future. Iconic events including Chinese New Year, Hogmanay and the New Orleans Mardi Gras are examined and examples are drawn from a diverse range of countries such as South Korea, China, Laos, the United States, Scotland, Italy, India and Haiti. This volume provides a deep understanding upon the role of tradition and ritual within events, from a global perspective and will be valuable reading for students, researchers and academics interested in events, heritage and culture.

2012-10-02 David Means Upon its publication, Assorted Fire Events won a Los Angeles Times Book Prize, was nominated for a National Book Critics Circle Award, and received tremendous critical praise. Ranging across America, taking in a breathtaking array of voices and experiences, this story collection now stands as one of the finest of our time.

2018-04-01 Lynn Van der Wagen Event Management, specifically written for the Diploma of Event Management and Advanced Diploma of Event Management, is a comprehensive resource for anyone wanting to build their expertise in professional event management. This edition adopts a scaffold learning pedagogy, helping students move through the material logically and efficiently while building on their understanding of tourism, cultural, business and sporting events.

2009-07-01 John A. Sokolowski one-of-a-kind introduction to the theory and application of modeling and simulation techniques in the realm of international studies Modeling and Simulation for Analyzing Global Events provides an orientation to the theory and application of modeling and simulation techniques in social science disciplines. This book guides readers in developing quantitative and numeric representations of real-world events based on qualitative analysis. With an emphasis on gathering and mapping empirical data, the authors detail the steps needed for

accurately analyzing global events and outline the selection and construction of the best model for understanding the event's data. Providing a theoretical foundation while also illustrating modern examples, the book contains three parts: Advancing Global Studies—introduces the what, when, and why of modeling and simulation and also explores its brief history, various uses, and some of the advantages and disadvantages of modeling and simulation in problem solving. In addition, the differences in qualitative and quantitative research methods, mapping data, and conducting model validation are also discussed. Modeling Paradigms—examines various methods of modeling including system dynamics, agent-based modeling, social network modeling, and game theory. This section also explores the theory and construction of these modeling paradigms, the fundamentals for their application, and various contexts for their use. Modeling Global Events—applies the modeling paradigms to four real-world events that are representative of several fundamental areas of social science studies: internal commotion within an anarchic state, a multi-layered study of the Solidarity movement in Poland, unilateral military intervention, and the issue of compellence and deterrence during a national security crisis. Modeling and Simulation for Analyzing Global Events is an excellent book for statistics, engineering, computer science, economics, and social sciences courses on modeling and simulation at the upper-

undergraduate and graduate levels. It is also an insightful reference for professionals who would like to develop modeling and simulation skills for analyzing and communicating human behavior observed in real-world events and complex global case studies.

2019-09-24 Amy Croushorn Celebrate your love of Disney with this gorgeous guide to creating magical and memorable events. Does your best friend love The Little Mermaid? Is your Lion King-obsessed sister hosting a baby shower? Would your family movie night benefit from a little Aladdin magic? This is the party planning guide for you! Entertaining With Disney is the only official Disney guide to exceptional events ranging from Halloween pumpkin carving, elegant dinner parties, fun birthday bashes, and sophisticated New Year eve soirees. Written by party planning expert Amy Croushorn, this is a must-have event planning guide for Disney Princesses of all ages. — Over 90 years of Disney Inspiration in One Book. From Mickey Mouse to The Little Mermaid, to Frozen, this book is rich with Disney history and beloved characters. — A party for every occasion. With ideas spanning Brunches, Barbecues, Birthdays and Dinner Parties, this is a true year-round event planning guide for all Disney fans. — Elegant Recipes. Learn how to make Ariel's Ocean Toast, Simba's Charcuterie Board, Elsa's Eggnog and many more Disney themed dishes, drinks, and desserts. — Stunning Decorations. Parties are more than just food! Dress up your

event with easy to make items such as a "Never Grow Up" party backdrop, Magic Carpet Picnic Blanket, and a Maleficent Welcome Wreath.

2011-11-01 Lemony Snicket NOW A NETFLIX ORIGINAL SERIES If you have not read anything about the Baudelaire orphans, then before you read even one more sentence, you should know this: Violet, Klaus, and Sunny are kindhearted and quick-witted, but their lives are filled with bad luck and misery. All of the stories about these three children are unhappy and wretched and will most likely fill you with deep despair. From The Bad Beginning to The End, this comprehensive collection with unfortunate bonus material that may or may not include trivia questions, character profiles, and several very sad sentences is the only choice for people who simply cannot get enough of a bad thing!

2008-09-10 C. Michael Hall Food and Wine Festivals and Events Around the World is a pioneering text that recognises the importance of this rapidly growing aspect of the tourism industry. Food and wine festivals and events play a significant role in rural and urban development and regeneration and the impacts of these events can be far ranging at a social, political, economic and environmental level. This innovative book recognises the development of food and wine festivals as a part of regional and national tourism strategies and uses international case studies to illustrate

practice and contextualise theory. Bringing together an international contributor team of experts, this is the first book to study this profitable and expanding area of the tourism industry and provides a unique resource for those studying in the fields of tourism, event management and culinary arts.

2017-10-24 Deb Perelman NEW YORK TIMES BEST SELLER • From the best-selling author of The Smitten Kitchen Cookbook—this everyday cookbook is “filled with fun and easy ... recipes that will have you actually looking forward to hitting the kitchen at the end of a long work day” (Bustle). A happy discovery in the kitchen has the ability to completely change the course of your day. Whether we’re cooking for ourselves, for a date night in, for a Sunday supper with friends, or for family on a busy

weeknight, we all want recipes that are unfussy to make with triumphant results. Deb Perelman, award-winning blogger, thinks that cooking should be an escape from drudgery. Smitten Kitchen Every Day: Triumphant and Unfussy New Favorites presents more than one hundred impossible-to-resist recipes—almost all of them brand-new, plus a few favorites from her website—that will make you want to stop what you’re doing right now and cook. These are real recipes for real people—people with busy lives who don’t want to sacrifice flavor or quality to eat meals they’re really excited about. You’ll want to put these recipes in your Forever Files: Sticky Toffee Waffles (sticky toffee pudding you can eat for breakfast), Everything Drop Biscuits with Cream Cheese, and Magical Two-Ingredient Oat Brittle (a happy accident). There’s a (hopelessly, unapologetically inauthentic) Kale Caesar with Broken Eggs and Crushed Croutons, a Mango Apple Ceviche with Sunflower Seeds, and a

Grandma-Style Chicken Noodle Soup that fixes everything. You can make Leek, Feta, and Greens Spiral Pie, crunchy Brussels and Three Cheese Pasta Bake that tastes better with brussels sprouts than without, Beefsteak Skirt Steak Salad, and Bacony Baked Pintos with the Works (as in, giant bowls of beans that you can dip into like nachos). And, of course, no meal is complete without cake (and cookies and pies and puddings): Chocolate Peanut Butter Icebox Cake (the icebox cake to end all icebox cakes), Pretzel Linzers with Salted Caramel, Strawberry Cloud Cookies, Bake Sale Winningest Goopy Oat Bars, as well as the ultimate Party Cake Builder—four one-bowl cakes for all occasions with mix-and-match frostings (bonus: less time spent doing dishes means everybody wins). Written with Deb’s trademark humor and gorgeously illustrated with her own photographs, Smitten Kitchen Every Day is filled with what are sure to be your new favorite things to cook.
