1965 Alfred W. Bowers Hidatsa Social and Ceremonial Organization, a study of an important horticultural Plains Indian tribe, synthesizes the rich material Alfred W. Bowers recorded in the early 1930s from the last generation of Hidatsas who lived in the historic village of Like-a-Fishhook. This documentary record of their nineteenth-century lifeways is now a classic in American ethnography. The book is distinguished for its presentation of extensive personal and ritual narratives that allow Hidatsa elders to articulate directly their conceptions of traditional culture. It combines archeological and ethnographic approaches to reconstruct a Hidatsa culture history that is shaped by a concern for cultural detail stemming from the American ethnographic tradition of Franz Boas. At the same time, its concern for the understanding of social structure reflects the influence of the British structural-functional approach of A. R. Radcliffe-Brown. The most comprehensive account ever published on the Hidatsas, it is of enduring value and interest.

2021-05-25 Ali Standish Perfect for fans of Orphan Island and Wishtree, The Mending Summer is the next stunning middle grade novel from Ali Standish—author of the Carnegie Medal nominee The Ethan I Was Before and August Isle, Bad Bella, and How to Disappear Completely—about a girl who is struggling to deal with her father’s alcoholism when she discovers an enchanted lake... Some summers are meant to break your heart. Others to mend it. Every once in a while, a summer rolls around that does both. For Georgia, this summer is shaping up to be a big disappointment. Mama is busy studying for her biology degree. Daddy is working nights, and often the man who comes home isn’t Daddy. He’s a man who looks like Daddy, but walks a little wobbly. Who sounds like Daddy, but sings a little too loud. Georgia calls him the Shadow Man. So now, instead of riding horses with her friends at camp, Georgia is sent off to the country to stay with her mysterious great-aunt for the summer to avoid her parents’ fighting. There, a lonely Georgia meets a mysterious friend named Angela and together, they discover a magical lake—one that can make wishes come true. At first, the lake offers Georgia a thrilling escape from her worries and hope that she can use its magic to heal her family. But as things grow worse at home, a troubled boy appears at the lake and the wishes threaten to spiral out of control . . . Award-winning author Ali Standish explores the courage it takes to piece your heart back together again when those closest to you break it. "Standish has created a timeless tale of discovery, growth, and relationships. A powerful story about an important topic." —School Library Journal (starred review) “Readers will be drawn into this story of friendship, magic, and the heartbreak—and healing—of addiction.” —Kirkus A JUNIOR LIBRARY GUILD SELECTION!

His private life is already fuel for the well-meaning gossips and the very last thing he needs is to get close to the new school teacher ... no matter how lovely she is. As summer days drift away, Langtry Meadows weaves its magic, Charlie and Lucy both get the chance to turn over a new leaf and start anew ... maybe with each other?"--Page 4 of cover

2004-01-01 Alfred W. Bowers Generations before the Lewis and Clark Corps of Discovery wintered in the northern Plains, the Mandan Indians farmed along the banks of rivers. The traditional world of the Mandans comes vividly to life in this classic account by anthropologist Alfred W. Bowers. Based on years of research and conversations with Crows Heart and ten other Mandan men and women, Bowers offers an engaging and detailed reconstruction of their way of life in earlier times. Featured here are overviews of how their households function, the makeup of their clan and moiety systems and kinship network, and a valuable look at the entire Mandan life cycle, from birth and naming through adulthood, marriage, and death. Mandan Social and Ceremonial Organization also includes descriptions and analyses of Mandan ceremonies, legends, and religious beliefs, including origin myths, the Okipa Ceremony, sacred bundles, Corn ceremonies, the Eagle-Trapping Ceremony, Catfish-Trapping Ceremony, and the Adoption Pipe Ceremony. Many of these practices and beliefs remain vital and relevant for Mandans today. A comprehensive look at the legacy and traditional roots of present-day Mandan culture, Mandan Social and Ceremonial Organization is a classic ethnography of an enduring North American Native community.

2012-01-01 Matthew L.M. Fletcher An absorbing and comprehensive survey, The Eagle Returns: The Legal History of the Grand Traverse Band of Ottawa and Chippewa Indians shows a group bound by kinship,geography, and language, struggling to reestablish their right

to self-governance. Hailing from northwest Lower Michigan, the Grand Traverse Band has become a well-known national leader in advancing Indian treaty rights, gaming, and land rights, while simultaneously creating and developing a nationally honored indigenous tribal justice system. This book will serve as a valuable reference for policymakers, lawyers, and Indian people who want to explore how federal Indian law and policy drove an Anishinaabe community to the brink of legal extinction, how non-Indian economic and political interests conspired to eradicate the community’s self-sufficiency, and how Indian people fought to preserve their culture, laws, traditions, governance, and language.

2002 Gary Richards A good natured, affable man embittered by the death of his beloved wife reluctantly sells his business and home in Brooklyn and moves to Florida. In what he thought would be "God's waiting room," he finds a world of new possibilities as single women his age flock to charm the new, available man. This play by the author of Dividends is about the rebirth of an elderly man who finds that the long dormant teenager in himself still exists. It celebrates the richness of the mature life experience in a warmhearted comedy that clearly demonstrates it's not how old you are, it's how you are old!

2005-02-28 Walter S. Dunn Jr. Life on the frontier in the decades before the Revolution was extremely difficult and uncertain. It was a world populated by Native Americans, merchants, fur traders, land speculators, soldiers and settlers—including women, slaves, and indentured servants. Each of these groups depended on the others in some way, and collectively they formed the patchwork that was life on the frontier. Using a wealth of material culled from primary sources, Dunn paints a vivid picture of a world caught up in the winds of change, a world poised on the edge of revolution. Life on the frontier in the decades before the Revolution was extremely difficult and uncertain. It was a world populated by Indians, merchants, fur traders, land speculators, soldiers and settlers—including women, slaves, and indentured servants. Each of these groups depended on the others in some way, and collectively they formed the patchwork that was life on the frontier. Using a wealth of material culled from primary sources, Dunn paints a vivid picture of a world caught up in the winds of change, a world poised on the edge of revolution. In the 15 years preceding the American Revolution, the existence of the frontier exerted a dominant influence on the colonial economy. The possibility

of new territory in the West and the removal of the French army offered an enormous opportunity for economic expansion but such prospects were not without risk. Farmers worked endlessly to clear a few scant acres for production. Traders struggled to reach remote areas to bargain with local tribes. Merchants weighted the possibilities for enormous profit with huge risk. Native Americans faced increasing encroachment upon their traditional lands. Women and slaves played a greater role in opening the frontier than many sources have indicated.

2008 Carolyn Ackerly Bonstelle On April 12, 1861, Confederate forces at Fort Johnson fired upon Federal-occupied Fort Sumter in Charleston Harbor, etching James Island's name in American history as the starting place of the War Between the States. The island was a battleground for war skirmishes, live oak-laden property that housed antebellum plantations, fertile soil that yielded sea island cotton, precious land that enslaved so many, and a rural planting community existing in the shadow of Charleston. More than this, though, James Island was and is a beloved home to generations of proud families and individuals. This South Carolina sea island, which once flourished and folded under the bondage of slavery, is now a place where all races live and celebrate its rich heritage. The Gullah culture and language thrive and are treasured here, as are the Southern traditions of the original planters and their descendants.

1994 Jack Masson During the last decade, Alberta municipalities have endured hardships they have not faced since the Great Depression. Changes in the province's political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities, yet surprisingly few municipal politicians have resisted the province's financial policies.

1998 Kelley Hays-Gilpin This Reader in Gender Archaeology presents nineteen current, controversial and highly influential articles which confront and illuminate issues of gender in prehistory. The question of gender difference and whether it is natural or culturally constructed is a compelling one. The articles here, which draw on evidence from a wide range of geographic areas, demonstrate how all archaeological investigation can benefit from an awareness of issues of gender. They also show how the long-term nature of archaeological research can inform the gender debate across the disciplines. The volume: \* organizes this complex area into seven sections on key themes in gender archaeology: archaeological method and theory, human origins, division of labour, the social construction of gender, iconography and ideology, power and social hierarchies and new forms of archaeological narrative \* includes section introductions which outline the history of research on each topic and present the key points of each article \* presents a balance of material which rewrites women into prehistory, and articles which show how the concept of gender informs our understanding and interpretation of the past.
