2009-10-14 Peter Ney The night before his seventh birthday, Peter Ney and his family were awakened by the sound of yelling and of breaking glass as their home was vandalized. Kristallnacht was just the beginning of the Nazi violence against the Jews, and it shaped the rest of Peter's life. Spanning seventy years, Getting Here narrates the many twists and turns of his life. Two months after Kristallnacht, Peter's parents placed him on a train to England; he was one of 10,000 German children granted safe refuge in England via the Kindertransport. His parents joined him in London just before the start of World War II, and as a family they immigrated to the United States. This memoir tells of Peter's journey from Germany—from his adolescence and art school training, to his fifty-six year marriage to Betty; work as a designer of consumer products, and human engineer in the space program, a twenty-year career as a trial attorney, and his tenure as a judge on the Colorado Court of Appeals. More than seventy years ago, Peter and his family arrived penniless in the United States. Getting Here not only describes that journey, but rejoices in the fulfilling of the American dream—from a seat on a refugee train to a seat on the appellate bench.

2021-05-11 Faith Kearns Scientists today working on controversial issues from climate change to drought to COVID-19 are finding themselves more often in the middle of deeply traumatizing or polarized conflicts they feel unprepared to referee. It is no longer enough for scientists to communicate a scientific topic clearly. They must now be experts not only in their fields of study, but also in navigating the thoughts, feelings, and opinions of members of the public they engage with, and with each other. And the conversations are growing more fraught. In Getting to the Heart of Science Communication, Faith Kearns has penned a succinct guide for navigating the human relationships critical to the success of practice-based science. This meticulously researched volume takes science communication to the next level, helping scientists to see the value of listening as well as talking, understanding power dynamics in relationships, and addressing the roles of trauma, loss, grief, and healing.

1997 William White Howells Renowned anthropologist, author, and educator Howells, draws together the latest from all of today's sciences to tell the fascinating story of man's evolution. Long recognized as one of the world's foremost authorities and interpreters of

2013 Ellen Krug A compelling memoir about "Ed" Krug, who as a man, had everything that anyone could want: a soul mate's love, the adoration of two beautiful daughters, a house in the best neighborhood, and a successful trial lawyer's career. After years of self-denial, "Ed" began a "gender journey" of self-discovery. In the end, that journey meant accepting Ellen, even though doing so meant giving up much of what "Ed" had valued as a man. This is a truly compelling story that goes beyond some things lost and others gained. It has universal meaning for everyone--whether they are transgender or not.

2019-02-26 Suzanne Enoch The first in a wickedly seductive new Scottish historical romance series from New York Times bestselling author Suzanne Enoch! "It's time to fall in love with Suzanne Enoch." — Lisa Kleypas *HAPPILY-EVER-AFTER* London socialite Amelia-Rose Baxter is nobody's fool. Her parents may want her to catch a title, but she will never change who she is for the promise of marriage. Her husband will be a man who can appreciate her sharp mind as well as her body. A sophisticated man who loves life in London. A man who considers her his equal—and won't try to tame her wild heart... *IN THE HIGHLANDS* Rough, rugged

Highlander Niall MacTaggart and his brothers know the rules: the eldest must marry or lose the ancestral estate, period. But Niall's eldest brother just isn't interested in the lady his mother selected. Is it because Amelia-Rose is just too. . . Free-spirited? Yes. Brazen? Aye. Surely Niall can find a way to soften up the whip-smart lass and make her the perfect match for his brother for the sake of the family. JUST GOT A WHOLE LOT HOTTER. Instead it's Niall who tempts Amelia-Rose, despite her reservations about barbarian Highlanders. Niall finds the lass nigh irresistible as well, but he won't make the mistake his father did in marrying an Englishwoman who doesn't like the Highlands. Does he have what it takes to win her heart? There is only one way to find out...

2011-09-29 Bob Knowling "Not just another business autobiography, this is a fascinating and uplifting look into one man's leadership journey through poverty, hardship, racism, and betrayal to becoming one of the most inspirational business leaders of our time." - Jane Marvin, former SVP human resources, Ross Stores, Inc. Bob Knowling is respected by many of America's most admired executives, from Jack Welch to Michael Bloomberg. He has led large organizations through periods of dramatic transformation; management guru Noel Tichy calls him "a change agent's change

agent." But even more impressive than Knowling's résumé is the road he took to the top. He grew up as one of thirteen children in Indiana, shuttling between the homes of his divorced parents, surrounded by crime, poverty, drug abuse, and racism. Later he lived and worked on his grandparents' farm in Missouri. No one encouraged him to have big ambitions or even bothered to ask, "What do you want to be when you grow up?" But Knowling used his athletic and academic talents to earn a college scholarship and later an MBA. He became an expert at leading change-helping others see a better future, then work hard to make it real. Knowling's story proves that almost any disadvantage can be overcome with persistence and a passion for excellence. And it teaches us how to embrace change rather than cling to the past. It is easy to lose sight of our potential in a time of economic turmoil, joblessness, and confusion. Knowling reminds us that none of those conditions is permanent and, more important, that none of them excuses us from making a concerted effort at whatever we try to do. As he puts it, "You turn around organizations, in most cases, by turning around individuals. . . . The real lesson of transformation is that it happens not in companies and not in offices, but in lives." Knowling believes that we do not define ourselves by our upbringing or the external conditions of our lives. It's our response to those conditions that counts. It's not where you came from; it's what you do with your potential.

You'll be amazed to learn where Knowling came from and how he got from a really distant "there" to a very inspiring "here."

1991 Roger Fisher Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement.

2010-09-03 Marshall Goldsmith Your hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams

at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

Clara Atmane Learn to tell your truth from a reflective, honest, nonreactive prospective. Recently retired from a challenging legal career, Clara Atmane was asking the big questions: Who am I now? Why am I here now? Why am I still so lonely? Digging into the first ten years of her life, Atmane uncovered secrets and hidden treasure. Blame and anger turned to wonder and curiosity. Emotions and trauma in those first ten years defined her; yet, her ability to survive and the techniques she developed also came to shape who she had become. In *Getting Here From There*, Ms. Atmane proves that where you start has no bearing on where you can end up. Born the youngest of six in a farming family, the idyllic backdrop hid a hostile and unwelcoming environment. The messages in those formative years were clear: You are ugly. Your birth caused our mother's mental illness. If you tell, you will not be believed. There was a dark side to her family. There were villains. Thankfully, there was also survival. *Getting Here From There* will show you how one woman came to forgive and even thank the people who mistreated her.

2014-02-25 David Jacoby Globalisation, technology and an increasingly competitive business environment have encouraged huge changes in what is known as supply chain management, the art of sourcing components and delivering finished goods to the customer as cost effectively and efficiently as possible. Dell transformed the way people bought and were able to customise computers. Wal-Mart and Tesco have used their huge buying power and logistical skills to ensure the supply and stock management of their stores is finely honed. Manufacturers now make sure that components are where they are needed on the production line just in time for when they are needed and no longer. Such finessing of the way the supply chain works boosts the corporate bottom line and can make the difference between being a market leader or an also ran. This guide explores all the different aspects of supply chain management and gives hundreds of real life examples of what firms have achieved in the field.

2016-10-04 Suzanne Enoch WILD AT HEART Scotland, 1812: He's ferocious and rugged to the bone, an English soldier more at home on the battlefield than in any Society drawing room. And when Major Gabriel Forrester learns that he's inherited the massive Scottish Highlands title and estate of a distant relation, the last thing he wants to do is give up the intensity of the battlefield for the too-soft

indulgences of noble life. But Gabriel Forrester does not shirk his responsibilities, and when he meets striking, raven-eyed lass Fiona Blackstock, his new circumstances abruptly become more intriguing. Like any good Highlander, Fiona despises the English—and the new Duke of Lattimer is no exception. Firstly, he is far too attractive for Fiona's peace of mind. Secondly, his right to "her" castle is a travesty, since it's been clan Maxwell property for ages. As the two enter a heated battle of wills, an unexpected passion blazes into a love as fierce as the Highlands themselves. Is Fiona strong enough to resist her enemy's advances—or is Gabriel actually her hero in disguise? "It's time to fall in love with Suzanne Enoch." —Lisa Kleypas

2018-05-29 Hannah Brencher Come Matter Here is a call to stop putting your life on hold until "someday" and start digging your heels into the here and now to build the life God has designed for you. Life is scary. Adulthood is hard. When faced with the challenges of building a life of your own, it's all too easy to stake your hope and happiness in "someday." But what if the dotted lines on the map at your feet today mattered just as much as the destination you dream of? Hannah Brencher, TED Talk speaker and founder of The World Needs More Love Letters, thought Atlanta was her destination. Yet even after she arrived, she found herself in the same old chase for the next best

thing...somewhere else. And it left her in a state of anxiety and deep depression. Our hyper-connected era has led us to believe life should be a highlight reel—where what matters most is perfect beauty, instant success, and ready applause. Yet, as Hannah learned, nothing about faith, relationships, or character is instant. So she took up a new mantra: be where your feet are. Give yourself a permission slip to stop chasing the next big thing, and come matter here. Engage the process as much as you trust the God who lovingly leads you. If you are tired of running away from your life or tired of running ragged toward the next thing you think will make you feel complete, Come Matter Here will help you do whatever it takes to show up for the life God has for you. Whether you need to make a brave U-turn, take a bold step forward, or finish the next lap with fresh courage, find fuel and inspiration for the journey right here.

2010-05-11 Todd Strasser Her street name is Maybe She lives with a tribe of homeless teens - runaways and throwaways, kids who have no place to go other than the cold city streets, and no family except for one another. Abused, abandoned, and forgotten, they struggle against the cold, hunger, and constant danger. With the frigid winds of January comes a new girl: Tears, a twelve-year-old whose mother doesn't believe her stepfather abuses her. As

the other kids start to disappear -- victims of violence, addiction, and exposure -- Maybe tries to help Tears get off the streets...if it's not already too late. Todd Strasser, author of the powerful and disturbing Give a Boy a Gun, again focuses on an important social issue as he tells a thought-provoking, heart-wrenching story of young lives lost to the streets, and of a society that has forgotten how to care.

2012-01-26 Margaret R Miles This book of conversations between Margaret R. Miles and Hiroko Sakomura compares the experiences of two women who grew up in different societies, with different educations, different professions, and different religious orientations. Reflecting on the different ways in which Japanese and American societies inhibited and enabled them, these two women share their struggles, difficulties, and achievements. All of this is set in the context of one of the most radical social movements in the history of the world, as women are gaining increments of equality with men in designing and administering the institutions of public life with opportunities, dangers, and rewards. This is a moment in which a critical mass of women "want it all now", in the best sense of the phrase, seeking to preserve and reinterpret traditional values while exercising their capabilities and skills both in the home and in public life. This book is the memoir of two women's painful and joyful experiences in "getting here from there".
