2019-06-10 Joan-Pau Rubiés Joan-Pau Rubiés brings together here eleven studies published between 1991 and 2005 that illuminate the impact of travel writing on the transformation of early modern European culture. The new worlds that European navigation opened up at the turn of the 16th century elicited a great deal of curiosity and were the subject of a vast range of writings, much of them with an empirical basis, albeit often subtly fictionalized. In the context of intense literary and intellectual activity that characterized the Renaissance, the encounters generated by European colonial activities in fact produced a remarkable variety of images of human diversity. Some of these images were conditioned by the actual dynamics of cross-cultural encounters overseas, but many others were elaborated in Europe by cosmographers, historians and philosophers pursuing their own moral and political agendas. As the studies included here show, the combined effect was in the long term dramatic: interacting with the impact of humanism and of insurmountable religious divisions, travel writing decisively contributed to the transformation of European culture towards the concerns of the Enlightenment. The essays illuminate this process through a combination of general discussions and the contextual analysis of particular texts and debates, ranging from the earliest ethnographies produced by merchants travelling to Asia with Vasco da Gama, to the writings of Jesuit missionaries researching idolatry in India and China, or thinkers like Hugo Grotius seeking to explain the origin of the American Indians.

2019-04-22 Charles Forsdick In its attention to the 'keywords of travel', *Keywords for Travel Writing Studies* takes into account the established status of studies in travel writing and the field's significance for an audience beyond the academy. It responds to what might be described as the 'mobility turn' in the arts and humanities over the past two decades. Each entry in the volume is around 1,000 words, and the style is more essayistic than encyclopaedic, with contributors providing a reflection on their chosen keyword from a variety of disciplinary perspectives. The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension; the aim is to give an overview of each term in its historical and theoretical complexity, providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing. Each entry is complemented by an annotated bibliography of five essential items suggesting further reading.

2017-11-05 J. Vaughan Hughes Excerpt from *Seventy Years of Life in the Victorian Era: Embracing a Travelling Record in Australia, New Zealand, and America*, &C I AM one who has just commenced to traverse his seventy-first year, and can look backward over a life more or less of a checkered character, involving as it does a time spent in actual warfare, as well as in a struggling civil life passed in the metro polis and the provinces of England, with intervals of travel extending over Europe, the Australian colonies, and America. A review of the experiences of such a life may, perhaps, prove to be interesting and even instructive, and I make no further apologies for printing these reminiscences. 2018-09-14 Nicola Frost As we grapple with a growing refugee crisis, a hardening of anti-immigration sentiment, and deepening communal segregation in many parts of the developed world, questions of the nature of home and homemaking are increasingly critical. This collection brings ethnographic insight into the practices of homemaking, exploring a diverse range of contexts ranging from economic migrants to new Chinese industrial cities, Jewish returnees from Israel to Ukraine, and young gay South Asians in London. While negotiating widely varying social-political contexts, these studies suggest an unavoidably multiple understanding of home, while provoking new understandings of the material and symbolic process of making oneself "at home."

1991-04-23 James Fenimore Cooper Notions of the Americans in considered Cooper's first work of non-fiction despite a thin overlay of character and plot. Written in the form of a travel narrative, it addresses the widespread ignorance he encountered in Europe about the people and institutions of the United States. It is an exuberant chant of praise for American representative democracy, encapsulating the utopian vision that compelled Cooper's writing career over three decades. The introduction draws on materials never before published. this edition, distinguished by the seal of the Center for Scholarly Editions, is the first resetting of the text since the initial American edition in 1828.

2014-02-21 Namita Gokhale An essential traveller's companion This is an unusual collection of travel pieces by writers ranging from M.J. Akbar and Aman Nath to Devdutt Pattanaik, Jerry Pinto, Rahul Pandita and Advaita Kala. Featured here are essays on the changing face of the

popular hill resort-Nainital, living as a Pakistani in the remote city of Copenhagen, a woman traveller being strip-searched at an American airport and traversing the dark interiors of the haunted Bhangarh Fort in Rajasthan, among others. Focusing on the Indian experience, the book captures a country of shifting landscapes - physical, cultural, psychological. A departure from the traditional travel narrative, this is a unique collection for the travel-book buff.

2010 Robert Gordon Increasingly students from affluent countries are going abroad as part of their educational experience. Yet travel abroad often has a greater impact on the hosts than on the visitors. And sometimes what student-travelers learn turns out, on reflection, to be lessons about themselves-not about the sights and people they encountered but how they "survived." This literary and evocative book is based on the assumption that travel broadens the mind but only when one is predisposed to let it. It seeks to inculcate that state of mind that is amenable to learning from others. It is an anthropology of travel and the use of anthropology in travel. It combines philosophy and analysis of travel with the nitty-gritty of how to get the most out of it. It can be read on the road-but ideally is read before departure. Perhaps the key lesson is to introduce a sense of humility that opens us up to growth through travel. Anthropologists have made a profession of going abroad. What lessons can one glean from the practice of anthropological fieldwork to make the student or any traveler's travel abroad a deeper learning experience?

1993 Robyn Davidson

2014-10-27 Doug Lansky TRAVEL: THE GUIDE an insightful, irreverent, and highly visual new take on travel that will challenge readers to rethink the way they look at travel and how they interact with the world around them. You might think of it like an inspiring TED Talk on travel that you flip through yourself. Jason Cochran, author and editor for Frommer's guides, described it this way: "It's not really just about travel. It's about exploding every stereotype, fear, and expectation you have about the rest of the world and your place in it. Once you start flipping through, you'll be consuming little knowledge bombs like potato chips. Good luck stopping. And good luck seeing things the same way ever again." Mike Carter, a contributor to The Observer and The Guardian wrote: "Turns on its head just about everything we thought we knew about how to get the best out of our travels, gloriously debunking the myths and exposing the cliches along the way."

2021-04-15 Kate Wills If Joan Didion was right, and we do tell ourselves stories in order to live, then a travel story is the best story of them all. And I had form for escaping in stories... After an unexpected divorce, after less than a year of marriage, Kate Wills decides to lose herself in her job. As a travel journalist, Kate has the the perfect opportunity to escape from it all by exploring the world. This time, though, things were different: Kate felt more alone, particularly against a backdrop of never-ending hen dos, weddings and baby showers. So, she began to search history for female travellers to inspire her. From a 4th-century nun to a globe-girdling cyclist to a cross-dressing French voyager who circumnavigated the world, Kate discovers that throughout history, there have been astonishing women who've broken free from burdensome expectations, clearing the path for us to do the same. A Trip of One's Own is a funny, heartfelt and

inspiring invitation to take that trip of a lifetime: to Australia, to Paris, to Whitstable, or maybe down that street you've always wondered about.

2011-12-14 Tove Jansson This newly translated collection of stories brilliantly evokes the shifting scenes and restlessness of summer. A professor arrives in a beautiful Spanish village only to find that her host has left and she must cope with fractious neighbours alone; a holiday on a Finnish Island is thrown into disarray when a

disconcerting young boy arrives; an artist returns to an old flat to discover that her life has been eerily usurped. Philosophical and profound, but with the deceptive lightness that is her hallmark, Travelling Light is guaranteed to surprise and transport.
