2013-10 Susan L. Strauss Bullying in schools is often discussed, but sexual harassment in schools, and how it differs from bullying is often overlooked. In fact, though, sexual harassment (committed both by fellow students and school personnel) is more common and yet more easily and quickly dismissed by those involved, though its consequences for the victim can be profound. This book provides parents, teachers, school officials, and others with a framework comparing and contrasting sexual harassment and bullying as they relate to the behavior, laws, and impact on children. The author describes the responsibility of the school district and how parents and other adults can navigate the schools' policies,

barriers, and responsibilities. She argues that children should not be subjected to bullying OR sexual harassment, that it is the school's responsibility to make the harassment or bullying stop, and that parents and other caring adults often need to be involved and advocate for the child, even against resistance from those in the school system. Throughout the book the author uses examples of actual cases that have made it to the courts and have been precedent setting and cases in which she has been involved as an expert witness or as a consultant. Resources for readers are also provided at the end of the book.

2012-08-14 Chuck Thompson Chuck Thompson—dubbed "savagely funny" by The New York Times and "wickedly entertaining" by the San Francisco Chronicle—spent two years traveling the American South to determine whether, as he'd long suspected but not yet proven, the whole country might be better off letting Dixieland make good on its two-hundred-years-old threat to secede. The result is a long overdue and serious inquiry into national divides that is deliberately provocative and uproariously funny while making a compelling case for "a kind of no-fault divorce for nation-states: no hard feelings, just two adults who can't quite make the relationship work, shaking hands and walking away" (The Oxford American).

2011-04-07 Richard N. Southworth Religion is not enough. Culture is not enough. Both religion and culture are important, even crucial to living a full life, but they are not enough. Choosing authenticity is the only thing that is enough. Our deepest desire is for our active lives to actually become more and more an authentic expression of who we are and who we are called to be by that Mysterious Other we call God. We long for a No BS Spirituality that changes the way we actually experience and live our lives. We need spiritual practice that facilitates that growth and transformation, and conversion of heart. It is my prayer that these reflections will respond to that longing. Read, reflect, and enjoy!

2011-01-15 Kenneth Aitken The concept of a single condition known as 'autism' is quickly becoming outdated, and is now understood to be an umbrella term for a variety of predominantly genetic conditions. This can be confusing for parents of children who have been diagnosed as having an 'autism spectrum disorder'. An A-Z of Genetic Factors in Autism provides parents with a complete overview of the main genetic disorders associated with autism, including those linked to growth differences, cardiovascular issues, neurodevelopmental problems, immune dysfunction, gastrointestinal disturbances and epilepsy. Kenneth Aitken demystifies the umbrella term 'autism' by alphabetically listing these conditions along with information about how common they are, their causes, signs, and symptoms, and for many, appropriate methods of treatment and management. Information on support groups and sources of further information are also included to help parents obtain any additional support they need, and keep up to date with new developments in research and practice. This is a must-have book for any parent or carer who feels confused by their child's diagnosis, or who seeks a better understanding of the many genetic conditions linked to autism.
