2017-09-08 Nick Lakin "We need to do Community Involvement better - we know we're spending millions each year on charitable causes; how can we find out what is really effective and what people will appreciate us for? Who should we partner with? How can we make a real difference in society and help our business?" Companies around the world are trying to answer these questions. Many are asking the same questions even as, collectively, they continue to spend billions on their communities. How do they know which activities are really worthwhile? Building on the authors' own extensive global experience at Nokia and E.ON, as well as the experience of many other experts in the field, this book offers the first-ever "how to" roadmap for managers on the comprehensive implementation of strategic Community Involvement inside their

companies. It is designed to be practical, for those who want to act upon what they have read. It will fill a long-neglected niche as a day-to-day reference guide for practitioners. Corporate Community Involvement demonstrates what to do and how to do it. The advice is backed up by inspiring interviews with best-in-class practitioners from businesses such as Microsoft, GlaxoSmithKline, Ericsson, and Deutsche Bank and leading international Corporate Responsibility and Community Involvement experts. The book highlights proven best-practice approaches, effective methods, and concise tools to help managers "get there faster" and "get it right first time." The core of the book is a step-by-step guide to developing and implementing a comprehensive and successful approach to Corporate Community Involvement. It shows how to: conduct a current state analysis and devise a strategy, organize staffing and budgets, integrate Corporate Community Involvement throughout the business and create high-profile programs, partner across sectors, measure and evaluate results, communicate successful activities, and overcome challenges. Corporate Community Involvement has an international perspective: the models and principles advocated are adaptable anywhere in the world. Also, it is designed to have as much relevance to a small or medium-sized enterprise as to a multinational. The book outlines the history and future of Corporate Community Involvement, explaining the business context

and why companies need to manage their programs strategically. It also distinguishes between the growing lexicon of terminologies and provides clear definitions of terms such as "philanthropy", "sponsorship", "Corporate Citizenship", "Corporate Responsibility" and "Sustainability", advising when they are appropriate and how each can add value to corporate activities. This will be an indispensable resource for those working at the interface between business and the community. New or developing practitioners will learn from both the successes and failures of those before them. Representatives from other sectors, notably government, international agencies, NGOs, and academia, will come to understand companies' internal requirements for cross-sector collaboration programs in the community better. And students interested in this field will be better equipped to start careers.

2005 Bruce Maxwell Indexed for easy reference, this volume is a comprehensive guide to federal openings in the U.S. and the world. It includes information for all agencies and departments, pay rates, and vital tips on creating a federal resume, applying online, interviewing for federal jobs and more.

2023-07-03 Robert Feirsén Competition for the best teaching jobs is becoming more intense. Since publication of the first edition, when it was mainly the most desirable schools that

were deluged by applications, the economic climate has made the teacher market more competitive across the board, and is changing hiring practices. Now extensively revised, this book maintains its place as the most up-to-date book available on job hunting for teachers. The authors cover changes in the educational marketplace; the new mandates about standardized testing and public reporting of student achievement—and what they mean for applicants; how new certification standards and schools' requirements affect career changers; the growing acceptance of on-line applications and electronic portfolios; and provide additional advice for teachers applying to change schools or districts. This is also the only guide written by school administrators. Offering the insights and experience of two authors who do the hiring, it details a step-by-step program for taking charge of your teaching career. How to Get the Teaching Job You Want enables you to: * Match your unique talents to the needs of a particular school * Craft effective cover letters and resumes, using models that address the specific needs of college graduates, teachers changing schools, returning teachers and career changers * Make effective on-line applications * Leverage your achievements as an experienced teacher—or, for graduates or career changers, student teaching, substitute teaching, volunteer work or content knowledge—into a job offer * Locate jobs on-line and discover valuable information about schools, including test results, educational

philosophy and names of key administrators* Design a portfolio in book or electronic format to showcase your abilities* Practice interview skills using 100 questions taken from real job interviews* Apply proven strategies for a variety of interview formats, including high stress interviews and performance interviews* Address controversial questions during interviews This book covers procedures for applying to elementary, middle and high schools; public, independent, and parochial schools; as well as international and boarding schools. Anecdotes recounting the experiences of real candidates looking for jobs illustrate key points. Access to the authors' web site ensures that you will stay current in a changing job market. This is a vital book for teachers and aspiring teachers who want to achieve their career goals. It will also be invaluable for guidance counselors, psychologists, librarians and other school professionals.

2019-07-09 Diane Zabel Contributors provide insights about business librarianship in various types of institutions, explore traditional and non-traditional career paths in business librarianship, and discuss numerous strategies

for professional growth (from earning an MBA degree to working abroad). Among the topics covered are the following: recruitment of business librarians (including recent data on the supply and demand of business librarians); the special concerns of early career and mid-career business librarians; the importance of mentoring; leadership development; and business librarians on the job in academic, public, and corporate libraries. This book will appeal to a wide audience: practitioners; directors of public, academic, and special libraries serving the business community; library and information science educators; and those considering business librarianship as a career, including students, generalist librarians, and individuals seeking a career change. This book was published as a special issue of the Journal of Business & Finance Librarianship.

2005 Derick W. Brinkerhoff * A Foreword Magazine Book of the Year Finalist for 2005! * Focuses on development management positions in international service employment * Devises the concept of the "service-choice spiral" in career evolution * Provides information about volunteer and professional opportunities, organizations, and degree programs In Working for Change, Derick and Jennifer Brinkerhoff explore career paths in international public service, focusing on development management positions. They offer practical and inspiring guidance on finding the right mix of public service objectives, degree programs, job opportunities, and personal lifestyle choices. The Brinkerhoffs' concept of career evolution is encapsulated in a framework they call the service-choice spiral. This model rejects standard set-the-goal, plot-the-steps planning

and pulls one's personal values, skills, professional goals, and sense of altruism into a solid career choice. Through profiles of six public service professionals, the Brinkerhoffs illustrate how real people have faced the choices that confronted them in the course of their careers. Working for Change will assuredly become the ideal guide and resource for anyone considering work in public service and mid-career professionals looking for a change in direction. It will also serve as a powerful resource for university career development officers and faculty advisors. View the entire book online at ebrary.com here.

2015-06-18 Rebecca P. Butler This textbook, for school library administration courses, is written by a professor who has taught this course at least once a year for the past twenty years. Technology is interwoven throughout the book and not listed as a separate chapter or book section. This is because the school librarian of today—and certainly the school librarian of tomorrow—is working in an environment of web resources, multimedia, mixed methods, and varying programs and services. Major chapters cover the various roles of the school librarian, curricular standards and guidelines, policies and procedures, budgeting, facilities, personnel, services, programming, ethics, advocacy, and evaluation. Sample policies, procedures, and plans make this book valuable to both new and experienced school librarians.

2015-08-04 Karen Kelsky The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D.

As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application - Cultivating references and crafting the perfect CV -Acing the job talk and campus interview - Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.
