2014-09-26 Recep Efe As humans we have stewardship over the environment. Man's dominion does not mean a license to abuse, spoil, squander or destroy. Future cultures will be able to reach their potential only if this generation remembers that sustainable land use is a combination of economics, ecology and social justice. Our ancestors survived due to an innate sense of "oneness" whereby they helped each other. For them everything was "holy". Sustaining desired ecological, economic, and social conditions in the system is a big challenge, but not an impossible task. This book presents chapters by scientists from different disciplines from the Mediterranean Basin and its environs. It presents updated information and highlights the way forward for the fields of economy,

2009-06-02 Paul Lynch This volume is the first to examine the commercial home from an international perspective, paying attention to the frequently occurring but often neglected forms of commercial accommodation including farmstays, historic houses, and self-catering accommodation. Conceptually, it helps to explain a range of behaviours and practices, for example the importance of setting and the nature of the host/guest exchange. The idea of home provides a conceptual bridge to related themes, for example identity, gender, emotional management and cultural mobilities whose investigation in a commercial home context offers fascinating insights into hospitality, tourism and society. This book is structured around three themes. The first is dimensions of the commercial home and includes discussion of issues pertaining

to forms and characteristics and female entrepreneurship. The second theme considers the commercial home as an investigative lens to examine wider issues of society, hospitality and tourism such as the commercial home as a tool for rural economic development. The third theme, extending the commercial home paradigm, looks at new areas of development, including the Malaysian Muslim home as a site for economic and political action and the use of the home in marketing regional localities. Commercial Homes in Tourism is the first book to give recognition to this distinct, economically important and expanding form of tourism business by bringing together recent, international research on this common form of commercial tourism accommodation. Given the global nature of the commercial home phenomenon, and owing to the originality of its theoretical contributions and practical insights, this book will be of interest across a broad range of subjects and disciplines interested in the examination of the home phenomenon, including students, academics and business practitioners.

2011-02-09 Katia Laura Sidali This book will be a valuable source of information for those concerned with rural and farm tourism, sustainable tourism and the marketing of "Calibri">local gastronomy. It presents cases with an international and interdisciplinary approach in order to provide ideas for strategic perspectives in tourism studies. Furthermore, for the first time the complex fields of rural and food tourism are examined from an international (Italy and Germany) viewpoint. This book explores ways in which gastronomical heritage (i.e., regional food, organic food) can be incorporated in rural tourism (above all farm tourism) and development policies as well as in new avenues of research e.g., sensory marketing, online marketing) in order to enhance

sustainable practices both in the tourism and in the agri-food sector. Overall, the book presents an overview of benchmark practices for professionals (associations of rural tourism, farmers, etc.), while offering scholars a well-founded source to refer to in order to gain up-to-date insights into the state of the art of studies on rural and food tourism.

2023-07-26 Quamrul Alam The economic and social development that Bangladesh has achieved in the past two decades has made Bangladesh a development paradox. This book tries to explain this paradox through a political economy lens. The book explains the linkages between the state, changing society and emerging private sector, and examines whether the social transformation taking place in Bangladesh has the potential to live up to the expectations of a middle-income country. The early part of the book unravels the myriad relations between the state, society and market to project the aspirations of a newly independent nation. It analyzes how political turmoil, militarization of politics, politicization of institutions, reforms initiatives, industrial and social development policies, and the power nexus influenced the nature of the political economy of Bangladesh. The book goes on to examine how domestic appetite for capital and raw materials, the digital revolution, and the capacity of the local market to absorb expanded economic activities

have created an environment that catalyzes innovation and entrepreneurship. The book also explains how the country has attempted to transform from an agrarian to a manufacturing- based economy, with rapid growth in the ready- made garment industry, pisciculture, pharmaceuticals and the ICT sector. Bangladesh's journey from an emerging economy towards a developed country would interest those researching on development economics and those in policy making.

2004 Simon St John The discerning guide to B&B's, small hotels, beach houses, cottages, eco retreats apartments, island getaways, boating experiences and day spas in Queensland. First Edition 2004

2021-07-01 Claire Westall This book analyses cricket's place in Anglophone Caribbean literature. It examines works by canonical authors - Brathwaite, Lamming, Lovelace, Naipaul, Phillips and Selvon - and by understudied writers - including Agard, Fergus, John, Keens-Douglas, Khan and Markham. It tackles short stories, novels, poetry, drama and film from the Caribbean and its diaspora. Its literary readings are couched in the history of Caribbean cricket and studies by Hilary Beckles and Gordon Rohlehr. C.L.R James' foundational Beyond a Boundary provides its theoretical grounding. Literary depictions of iconic West Indies players - including

Constantine, Headley, Worrell, Walcott, Sobers, Richards, and Lara - feature throughout. The discussion focuses on masculinity, heroism, father-son dynamics, physical performativity and aesthetic style. Attention is also paid to mother-daughter relations and female engagement with cricket, with examples from Anim-Addo, Breeze, Wynter and others. Cricket holds a prominent place in the history, culture, politics and popular imaginary of the Caribbean. This book demonstrates that it also holds a significant and complicated place in Anglophone Caribbean literature.

2021-08-24 Guy Hunter-Watts The GR7 is one of Europe's longest GR long-distance routes, stretching from Tarifa, the southernmost town of continental Europe, through Spain, Andorra and France to Alsace. This guide presents the Andalucian section of the route, which offers well over 700km of fantastic walking through the diverse landscapes of one of Spain's most evocative regions. The route splits at the small village of Villanueva de Cauche, and the guide describes both the northern and southern variants. Although walking is on good footpaths, country tracks and, occasionally, minor roads, some of the stages are long and can involve considerable ascent, meaning that a good level of fitness is required. The full Andalucian GR7 takes well over a month to walk; however, the guide also includes suggestions for highlight sections that can be

walked in a week or fortnight. In addition to clear route description, mapping and elevation profiles, the guide provides background information on local history, plants and wildlife, and advice for planning your trip, such as when to go, what to take and where to stay. The route showcases Andalucia's rich history and culture and varied landscapes, which include pine forests, semi-arid desert, snow-capped peaks, fertile plains, lush valleys, olive groves, cultivated terraces and hills of cork woodland. Historic towns and traditional whitewashed villages offer overnight accommodation and a chance to sample local cuisine.

2013 Chris McIntyre Both evocative and magical, Zanzibar offers travellers the quintessential Indian Ocean experience; palm fringed coastlines, powder- white sand, and colourful aquatic life. Passionate about detail, Chris and Susan McIntyre have carried out extensive on-the-ground research in producing this updated edition. There has been significant growth in the number of hotels, lodges and guesthouses on all three main islands since the last edition and, consequently, the accommodation listings have increased significantly: notably in Zanzibar Town (Stone Town), Matemwe, Michamvi Peninsula, and Mafia island. They visited all the accommodation listed. With almost 300 properties featured,

many are newly built and the vast majority (spanning all budget levels) do not feature in any other guide on the market. Each entry has a detailed description with a strong emphasis on guiding readers to the most ethical options. Zanzibar goes into far greater depth than its competitors on the natural environment, history, culture, and sights. Few other guide books cover the islands of Pemba and Mafia in any detail and yet they are easily combined in a trip. With a focus on the environment, visitors are directed towards fair-trade shopping opportunities and sustainable marine parks. This new edition also includes a dedicated section on southern Tanzanian safaris, making this guide excellent for readers looking for a bush and beach combination. Advice is given on how to be sensitive to the local Muslim culture. Bradt's guide is the most frequently and scrupulously updated guide available, vital for a destination with tourism growing and changing so rapidly.
