1993 Walter Zyznieuski In this completely revised, expanded, and updated edition, Walter G. Zyznieuski and George S. Zyznieuski describe sixty-nine trails that total more than eight hundred miles. Thirteen new trails have been added in this edition. All but four of the original maps have been revised and updated and many new photographs are included. Since the first edition was published, there have been many changes along the trails or at the parks or forests where the trails were located. In order to update their book, the Zyznieuskis contacted

the headquarters of each park and forest to obtain detailed and up-to-date information. In the appendixes the Zyznieuskis provide information on obtaining trail maps, hiking organizations, and rules and regulations for Illinois state parks and recreation areas. 2012-06-19 Tom Watson Within the seven county "metro" area that encompasses the Twin

Cities of Minneapolis and St. Paul lies a network of hundreds of miles of trails. Hikes were selected to be representative of the area, showcasing the park or region's main attractions or personality. Trails are based in a wide range of areas such as walkways of grass winding through majestic stands of Minnesota hardwoods. Other hikes are spider-web networks that remind one of well-used deer trails. Some are isolated within a pocket of greenery surrounded by vast ribbons of freeway concrete and broad subdivisions. Others are woven within the fabric of parklands so expansive that you could literally spend weeks hiking all the networks lying within their folds. Twin Cities' hiking is huge so get the guide that gets you there and back. This decisive guide to day hikes in the Twin Cities' area just got better. Updated maps, new hikes, new photos, and brand-new trailhead coordinates make Tom Watson's authoritative guide even more useful than before.
