2017-11-26 Neil Nikirk This Detailed Map Book is meant to accompany the written portion of the Floater's Guide and provide greater detail than the maps provided in the original Floater's Guidebook. As an aid to prospective paddlers, the author is making available these much more detailed maps based on the Garmin TOPO Mexico 1:50,000 scale topographic maps customized to each river using Garmin BaseCamp. These maps include the access points, camps, river mileage, water sources, hikes, and points of interest included in the mile by mile description in the original Floater's Guide. Together, these two volumes provide the information and mapping resources needed to navigate the rivers of the Yaqui Watershed covered in the Floater's Guide. Upon request and with proof of purchase of this Detailed Map Book, the author will make available these maps in PDF format so that they can be printed out on waterproof paper at the size of your choosing. Contact the author at guidebook@golightoutdoors.com for more information.

2005-06 Time Traveler Maps (Firm) A detailed map locating locations of adventures of over 170 outfitters and tour providers. Also includes directory.

2012-07-27 Michael A. Neiger

2010-03-30 Jason C. Downs The mapbook is composed of high detail, hill shaded USGS topographic maps overlaid by GPS captured hiking trails and waypoints. Updated regularly.

2017-09-30 Daniel Gibson This invaluable book tells you everything there is to know about skiing and snowboarding in the Land of Enchantment, with thousands of helpful details on the state's downhill ski resorts and cross-country and backcountry venues. Each ski area is profiled in a separate chapter, including details on facilities and services such as childcare and instructional options; statistics like average snowfall, vertical drop, and lift capacity; transportation options, including shuttle and bus services; and prices of lift tickets, rental equipment, and lessons. Gibson also includes historical facts about each ski area and its founders, suggestions for best runs by type of terrain, activities off the slopes, and notes on his favorite places to stay and eat. Separate chapters on cross-country and backcountry downhill skiing are equally informative.

2010-03-10 Wojtek Rychlik This is atlas of Sangre de Cristo Mountains with 21 USGS 7.5-minute TOPO maps (1:24,000), covering vicinity of all the Sangre lakes in Colorado with 214 color photographs, most of them taken from the air. This 230 page book is printed on an 8.5x11 inch paper with either hard cover or ring-bound laminated soft covers. The names of all the lakes and the mountains are given, along with their elevation above the sea level, and the trail basic information (the length and elevation changes). The lake and mountain names are indexed in the last pages. This is a very unique book made just for the hikers and for those who appreciate beauty of the mountains. Most pictures have been made in the middle of

hiking season, that is, July through September.

2014 Benchmark Maps (Firm) The new National Geographic Benchmark Recreation Atlases are an ideal recreation resource complete with accurate, detailed topographic maps. They contain a wealth of robust travel information, including campground locations, state park maps, sports and activity destinations, museums, hunting and fishing information, historic sites and even climate details. Every feature is clearly labelled, field-checked and verified, and everything is organised for convenience and intuitive ease-of-use. The books feature a double laminated cover to prevent wear and tear.

1996 Larry Sallee

2018-01-10 Sergio Mazitto Updated 2018 edition. Complete map of the Fiordland National Park, NZ covering great walks and wonderful tramping/hiking trails in the area. Detailed topographic map 1:95,000 for hiking and trekking, printed as an atlas book (with overlapping pages). 20 meter contour lines, road network, trails & paths, transportation, food, campsites, shelters, guest houses & hotels. Mercator projection with both UTM and WGS84 coordinate grids. The map scale of 1:95,000 (1 cm = 950 meters) provides a wealth of detail while keeping low the weight of the atlas itself. The large page format of 8.5x11 inches minimizes page count and along with an overlapping map design allows for comfortable navigation. The details included in the topographic maps of this atlas were specifically selected to be useful for trekkers, hikers and walkers of all interests, and make it easy to plan and enjoy both short excursions and hikes as well as long multi-day adventures along the main marked routes and/or adjacent trails and paths, which are also shown on the maps. With this ultralight atlas you will always have a detailed, reliable, information-rich, battery-independent, shatter-proof map for your adventure.

2024-01-01 Insight Guides This Insight Guide is a lavishly illustrated inspirational travel guide to Oregon and a beautiful souvenir of your trip. Perfect for travellers looking for a deeper dive into the destination's history and culture, it's ideal to inspire and help you plan your travels. 1996-01-01 Trails Illustrated (Firm)

2006 Thomas Schmidt In 2004, Yosemite National Park attracted 3.3 million visitors, and this new addition to our series of guides designed especially for motorists will help them get the most out of their time in this stunning corner of America. National Geographic has been covering the parks and creating definitive maps for more than a century, a proud tradition that here yields a distinctive, uniquely user-friendly approach to touring Yosemite by car or shuttle bus. Organized with the driver's convenience in mind, these detailed, large-scale topographic maps trace major roads one by one from beginning to end over several pages. Descriptive text runs alongside the corresponding map segment, eliminating the need to flip back and forth to learn where you are and what you're looking at. Once you've located your starting point, you can follow the road with confidence, with each point of interest detailed in a steady progression, letting you focus on the information about the geological, environmental, and human history around you. Highlights include spots to watch for wildlife such as black bear and bighorn sheep; dramatic views and geologic formations; sites of historical importance; and places to look for distinctive wildflowers and other plants. In addition, each map displays visitors centers, ranger stations, hiking trails, aid stations, and more, as well as locations for camping, boating, and fishing. Simple in concept but extremely effective in use, this is an inexpensive, innovative, and information-packed answer to accessing Yosemite's splendor.

2013-06-10 Geographers' A-Z Map Company

2014-08-18 Thomas M. Spencer In the first decade of the 21st century, Birmingham is building again on its natural resources, but this time it's not to fire steel-making smokestacks. Instead, where railroads ran and mines once burrowed into mountains, the healed landscape is being repurposed for hiking and biking. New and expanding venues around the city are providing more opportunities not only to get outside and exercise but also to appreciate the labor and industry that built the city. In Five-Star Trails: Birmingham local author Thomas Spencer leads readers to some of the best hikes around the city. Within a short drive from Birmingham, you can find yourself on an Appalachian mountain peak or on the banks of the Cahaba River as it broadens to snake through the Coastal Plain. You can visit old growth forest in the Sipsey Wilderness or hike down into the "Grand Canyon of the East" at Little River Canyon. And that's only the start. Across this landscape, you'll find a level of diversity of plant and animal species, some rare and endangered, that rivals anywhere in the North America.

2015 Rooftop Maps

2006-01-01 Duwain Whitis RiverMaps' (TM) Green River in Desolation and Gray Canyons is printed with USGS 7.5' topographic maps as the background at the original map scale of

2,000 feet per inch. Additional information is added for river runners, including river mileage, campsites, rapids, and other features of interest.
